SUMMARY

I'm a Computer Engineering student with hands-on experience in developing full-stack web and mobile applications. I enjoy working with technologies like React, Node.js, and modern UI frameworks to build smooth, engaging user experiences. I'm passionate about creating user-friendly and reliable digital products that blend creativity with functionality.

TECHNICAL SKILLS

- Languages: C, Python, Java, JavaScript, HTML, CSS
- Frontend: React.js, Tailwind CSS, Framer Motion
- Backend: Node.js, Express.js
- Databases: Supabase, Firebase, MySQL
- Tools: Vite, Git, Firebase Auth, Stripe, Chart.js, Google Maps API, Figma, Canva

PROJECTS

• ResQTech - Cross-Platform Emergency Response Mobile Application

A mobile application that centralizes emergency services, ResQTech allows users to send SOS alerts, share real-time locations with guardians, and access nearby emergency services. It also includes a knowledge quiz and safety guidelines to enhance user preparedness during critical situations.

• CapitalQuest - Full-Stack Financial Management Web Platform

CapitalQuest is a responsive financial management website offering interactive SIP/SWP calculators, a dynamic budget tracker with visual summaries, and real-time mutual fund data to help users plan, monitor, and optimize their investments effectively.

• CasaHue - End-to-End eCommerce Website for Home Decor

An eCommerce platform for home decor, this website offers a seamless shopping experience with user authentication, guest access, geolocation support, and integrated payment processing. It prioritizes user convenience through animated UI elements and intelligent session handling.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Design Head – LITSOC (Literary Society Club)

Don Bosco Institute of Technology | July 2024 – July 2025

- Led the design team in planning, creating, and managing visual content for all club events and workshops. Oversaw the creative direction for campaigns and helped organize a successful debate workshop.

Design Team Member – Colosseum Technical Fest

Don Bosco Institute of Technology | 2025

- Collaborated with the core organizing committee to develop branding assets and visual designs for the institute's annual technical fest, ensuring a consistent and appealing visual identity.

EDUCATION

Bachelor of Engineering in Computer Engineering

Don Bosco Institute of Technology, Vidyavihar

Year of Graduation: 2027

CGPA (Till 4th Semester): 9.12 / 10.0

CERTIFICATIONS

- MERN Stack Development – Local class
 - Java Programming – Local class
 - Python Programming – Udemy
 - HTML & CSS – Udemy
-
